

The Applications for the TEKNOFEST 2021 Technology Competitions Have Started!

The applications for technology competitions held within the scope of TEKNOFEST, the world's largest Aerospace and Technology Festival, have started.

TEKNOFEST Technology competitions is started, which thousands of young people from all walks of life have eagerly awaited and followed with interest. This year, thousands of qualified young students from elementary school to middle school and high school, university undergraduate, graduate, and postgraduate levels will be able to participate in technology competitions organized in different categories to realize their dreams. **The deadline for applications is February 28th .**

Self-Confident Young People, 35 Different Categories Await You!

TEKNOFEST Technology Competitions will be held in 35 different categories this year. More competition categories are added to the program each year and the biggest prizes in the history of Turkey will be given to the young people.

Artificial Intelligence, Underwater Systems, Unmanned Aerial Vehicles, and Autonomous Systems Competitions in All Fields of Technology

TEKNOFEST aims to create awareness about science and technology in society and increase human capital in science and engineering fields. TEKNOFEST organizes competitions from rocket competitions to autonomous systems from agricultural systems to underwater systems in all fields of technology to support young people who will work with the technologies of future. With this goal in mind, this year a total of **over 5 million TL** material support will be provided to the teams that pass the pre-selection stage, in order to support the projects of thousands of young people working in these fields. Teams that compete in TEKNOFEST and qualify for the rankings will be awarded more than **5 million TL**, cumulatively.

If you want to be a part of the TEKNOFEST Aerospace and Technology Festival which will take place in Istanbul between 21-26 September 2021, and apply to the competitions, please visit the website ;

For Primary and Middle School Students;

- Technology For Humanity Competition
- Education Technologies Competition
- Smart Transportation Competition

For High School Students;

- Smart Transportation Competition
- Biotechnology Innovation Competition
- Environment and Energy Technologies Competition
- Education Technologies Competition
- Hack İstanbul

- Technology For Humanity Competition
- Unmanned Underwater Systems Competition
- Rocket Competition
- Agricultural Technologies Competition
- Flying Car Design Competition
- World Drone Cup
- Artificial Intelligence Competition in Transportation
- Fighting UAV Competition

For Undergraduate, Graduate and Postgraduate;

- Smart Transportation Competition
- Biotechnology Innovation Competition
- Environment and Energy Technologies Competition
- Efficiency Challenge Electric Vehicle Races
- Educational Technologies Competition
- Hack Istanbul
- Helicopter Design Competition
- Communication Technologies Competition
- Technology For Humanity
- International Unmanned Aerial Vehicle Competition
- Unmanned Underwater Systems Competition
- Jet Engine Design Competition
- Mixed Herd Simulation Competition
- Tourism Technologies Competition
- Model Satellite Competition
- Robotaxi-Full Scale Autonomous Vehicle Competition
- Rocket Competition
- Fighting UAV Competition
- UAV Swarm Competition
- Agricultural Technologies Competition
- Agricultural Unmanned Land Vehicle Competition

- Flying Car Design Competition
- World Drone Cup
- Artificial Intelligence Competition in Transportation
- Artificial Intelligence Competition in Healthcare

The **DEADLINE FOR APPLICATION** to gain the right to compete in **TEKNOFEST 2021** is **28 FEBRUARY!**
